So the bill is passed and sent to the Senate. We cannot think that the Senate will take the responsibility of defeating, unless by a direct and manly vote, a measure of such great and general general interest, which has been sanctioned by such an overwhelming majority of the immediate Rep-

resentatives of the People. OREGON .- The Boston Mercantile Journal publishes an extract from a letter dated at Honolulu, stating that nineteen persons had just arrived there from Oregon, which they had left being disgusted with the country and the people. Some of them

are supposed to belong to the Mission family recently sent out by the Methodist Church. THE WHIG ALMANAC AND UNITED STATES REGIS-

TER for the year 1843 is published at the office of the New York TRIBUNE, in the city of New York. Price 121 cents. Pestmasters and others remitting one dollar will receive 12 capies by mail. I As a work of convenient reference for Families, Mer

chants and Mechanics, the United States Register and Whig Almonae for 1843 will be found superior to any other which can be found in the market for any thing like the same money. Beside a Life of Henry Clay, complete Calendar for all the States, tables of Eclipses and other astronomical calculations, it contains as much useful trading matter as is tound in an ordinary fifty cent volume. Its Tables of Population of the different States, and Times of holding Elections, and Election Returns of all the States are subjects of permanent asefulness. Every family and every office and store is the country ought to have a copy of this useful work banging up in a convenient place for convenience of reference. Price only 124 cents per copy.

The Whig Almanac for 1544 will be published in the month of October, 1843, and will contain an immense amount of useful reading matter, and valuable Political, Agricultural, Commercial and Manufacturing Statistics. The price will be the same as for the year 1843, viz. 122 cents single, \$1 per dozen, or \$7 per 100 copies.

SANDS'S SARSAPARILLA. Improvement in whatever regards the happiness and we fare of our race is constantly on the march to perfection, and

with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imag nation kindle and our admiration glow at the ingentity, the near approach to the standard of perfection, of the present time! Through the elaborate investigations of Physiology, or the science of Life, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbific matter, the The beautiful simplicity of this mode of treatment is not only suggested by the pathology of diseases, not only grateful to the sufferer, but perfectly in sonsonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, redecting mind. It is thus that SANDS's SARSAPARILLA, a scientific combination of essential principles f the most valuable vegetable substances, operates upon effectual aids, the most salatary productions, the most potent simples of the vegeta-le kingdom; and its unprecedented success in the rest-ration to health of those who had ong pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideration in the practice of mediine to obtain a remedy similar to this-one that would act on the liver, stomach and bowels with all the precision and petency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system

The attention of the reaser is respectfully called to the ollowing certificates. However great achievements have teretofore been mane by the use of this invaluable medicine, tet daily experience shows results still more remarkable. The Retrenchment Bill-The Navy.

NEW-YORK, Feb. 17, 1843.
To the Editor of the New York Tribune:

Will you have the goodness to inform me, and others in my situation, whether the \$1,600 exception clause in Mr. Arnold's ' Glorious Bill,' applies to officers of the Navy as well as to those in the Civil service. I inquire in order that I may commence immediately, if necessary, 2 20 per cent. reduction of my expenses, being myself a Navy Officer with a pay of less than \$1,000 per annum I fear I shall be com-pelled, if the bill passes, to pay the boot-maker 20 per cent. ess for boots than heretofore; the tailor 20 per cent less or clothes, and instead of giving my cast-off clothing, as I have done hitherto, to the poor, to sell it to Moses Abraham or some of his kin in Chatham street. I must pay 20 per ct. less for board, and of course must remove to the house of some person who pays the butcher 20 per cent. less for beef, and the market woman 20 per cent. less for vegetables, and the domestics 20 per cent, less for their services. Finally, I must pay 20 per cent, less for newspapers and magazines.

Now I am really very sorry, Mr. Editor, for all these,peo ple who will receive just 20 per cent, less of Upcle Sam's money through me than they have done heretofore, and if you can state any way in which it may be made to come out of my pocket, instead of those of the kutcher and huckster, and servant, and boot-maker, and tailor, and publisher. and editor I shall be happy to bear my share of the less -Meantime, as 'The Bill' may not pass the Senate, and as I cannot so conveniently read the paper of my neighbor (whose pay is not to be decreased 20 per cent.) as my own

I shall continue to be as I have been, Your most obedient servant, and A SUBSCRIBER TO THE TRIBUNG.

We beg leave to inform our apprehensive friend, first, that 'Bill 548' makes no reduction whatever in any man's salary or pay which is now below \$1,000-that he may breathe freer, and his butcher, tailor, boot-maker, &c along with him. Secondly, there has already been, since the present rates of Officers' Pay were established. a reduction of more than 20 per cent. on the average in the cost of living-including the charges of the tailor, butcher, baker, &c. &c .-Thirdly, the average cost of a man's reading is not now one-hard what it was when those rates of pay were settled. We trust, therefore, that

our friend's anxieties are entirely removed.

THE CHINESE EMBASSADOR .- The following speculations on the reported appointment of a Chinese Embassador to England are from the Times: " Will the great man bring Mrs. Foo with him ?-How many Mrs. Foes will be bring? If more than one, will the ladies of fashion think it delicate THE LAST OF THE BARONS-by E. L. Bulwer 25 to visit them all? Will the Queen receive them at her drawing-rooms? How many can be endured at Almack's? Will the state of their feet allow them to dance? Will his Excellency walk in Picadilly with his pig-tail on? Will he prove really like the little man on the teapots? How is he to settle the various and embarrassing questions of precedence which must doubtless arise between himself and the representatives of the different nations of this junior continent? Will be come in plenary representation of full Celestial Majesty, or will be turn out mere 'leather and prunella'-a paltry fellow, kicked into England from the footstool of the Brother of the Sun, to ROMANCE OF BORDER LIFE pick we what he can, and run back with it to his
